Summary of Business Continuity Plan

Abraham & Co. has developed a detailed *Business Continuity Plan* (our “Plan”) which describes how we will respond to events that significantly disrupt our business. Since the timing and severity of disasters and disruptions is unpredictable, we expect to respond in a situationally-applicable manner to the best of our ability. The following is a summary of our Plan: If, after a significant business disruption, you cannot contact us at our main email: invest@abrahamco.com or our main office number: (253) 851-7486, you should attempt to email us at: abecoserver@icloud.com In the event our email or phone systems are down and you cannot reach us directly and you need access to your account(s) you should contact the custodian or clearing firm at which your assets are held - *Schwab Advisor Services* “*Schwab*” by phone at: 800-435-4000 or via online chat at: Schwab.com or the *Contact Us* page on our website containing *Schwab’s Business Continuity Plan* at: <https://www.schwab.com/legal/continuity> and follow instructions on how they may execute orders on your behalf, distribute funds from your investment advisory account(s), provide account balances and information, and/or answer general questions about your account(s).

We plan to quickly recover and resume business operations after a significant business disruption and respond by safeguarding our employees and property, making a financial and operational assessment, protecting the firm’s books and records, and allowing our customers to transact business. Our business continuity plan is designed to permit our firm to resume operations as quickly as possible, given the scope and severity of the significant business disruption. Our business continuity plan addresses: data backup and recovery; all mission critical systems; financial and operational assessments; alternative communications with customers, employees, and regulators; alternate physical location of employees; critical supplier, contractor, bank and counter-party impact; regulatory reporting; and assuring our customers prompt access to their funds and securities if we are unable to continue our business.

Schwab Advisor Services (Custodian for Abraham & Co. advisory clients) employs rigorous business continuity plans. While every emergency situation poses unique problems based on external factors, such as time of day and the severity of the disruption, we have been advised by our Custodian that its objective is to restore its own operations and be able to complete existing transactions and accept new transactions, and payments, within 24 hours of receiving your orders or requests. Requests for funds and securities could be delayed during this period since this usually involves other (outside) banking or service providers. Significant business disruptions can vary in their scope, such as disruptions to only our firm, a single building housing our firm, the area or city where we are located, or the whole region. Within each of these areas, the severity of the disruption can also vary from minimal to severe. In a disruption to only our firm or a building housing our firm, we will transfer our operations to a local site when needed and expect to recover and resume business within 7 business days. In a disruption affecting our city, or region, we will transfer our operations to a site outside of the affected area, and recover and resume business within 10 business days. In either situation, we plan to continue in business and transfer operations to our custodian firm if necessary, and notify you through our web site www.abrahamco.com or our customer emergency numbers on how to contact us. If the significant business disruption is so severe that it prevents us from remaining in business, we will contact our custodian to assure our clients of prompt access to their funds and securities.
